Education Industry in India (US\$ billion)

Number of Colleges in India

- With ~24.2% of India's population in the age group of 0-14 years, India's education sector provides numerous opportunities for growth.
- According to the Union Budget FY26:
 - The government allocated Rs. 83,562.26 crore (US\$ 9.45 billion) to the Department of School Education and Literacy in FY27, marking an increase of 6.35% over FY26.
 - The allocation for the Department of Higher Education stood at Rs. 55,727.22 crore (US\$ 6.30 billion) in FY27, reflecting an increase of 11.28% compared to FY26.
 - Allocation for school education schemes (including major centrally sponsored programmes) continued to form a significant share, with key schemes such as Samagra Shiksha receiving ~Rs. 42,100 crore, indicating an increase of ~11% over revised estimates of FY26.
- The digital education market is a significant growth driver, growing at a 24% CAGR from 2025 to 2030. Key players are Coursera, Udemy, edX, Pluralsight, and Udacity. APAC is expected to grow at the highest rate due to heavy investment in EdTech infrastructure, online learning platforms, and AI-driven education tools.

Note: *Upto August 11, 2025, e-Estimated

Executive summary...(2/2)

- The edtech space has attracted private equity and venture capital investments of over Rs. 1,23,883 crore (US\$ 14.4 billion) over the last decade from 2015 to 2025.
- The Indian edtech market, currently valued at Rs. 64,875 crore (US\$ 7.5 billion) is projected to grow to Rs. 2,50,850 crore (US\$ 29 billion) by FY30, according to a report by the Internet and Mobile Association of India (IAMAI) and Grant Thornton Bharat.
- The Times Higher Education World University Rankings 2026 featured 2,191 institutions from 115 countries and territories, with India becoming the second-most represented country globally with 128 ranked universities, behind only the United States. The Indian Institute of Science was India's highest-ranked institution in the 201-250 band, followed by Saveetha Institute of Medical and Technical Sciences in the 351-400 band.
- India has 54 universities in the QS World University Rankings 2026, making it the fourth most represented country. The Indian Institute of Technology (IIT) Delhi is the highest-ranked at 123, and eight Indian institutions entered the rankings for the first time, the highest number of new entrants from any country this year.
- India's edtech sector has entered a new phase focused on usage rather than funding growth. Around 90% of households have smartphone access and 72% of children use them for learning, indicating deep digital penetration. Over 82% of institutions have adopted hybrid learning models

Advantage India

2. ROBUST DEMAND

- India has the largest population in the world in the age bracket of 5-24 years with 580 million people, presenting a huge opportunity in the education sector.
- India has over 250 million school-going students, more than any other country.
- Huge demand-supply gap with an additional requirement of 2,00,000 schools, 35,000 colleges, 700 universities and 40 million seats in the vocational training centres.
- The Study In India (SII) program aims to target more than half a million foreign students for higher education in India by 2047.
- India K-12 segment growth was valued at US\$ 48.9 billion in 2023. In 2026, governments worldwide increased investments in early childhood education through targeted policies and tax incentives, while the K-12 education segment is projected to grow at a CAGR of 3.50%, supported by rising enrolment and continued investment in education infrastructure.

1. COMPETITIVE ADVANTAGES

- In the QS World University Rankings: Asia 2025 India stands out with two universities in the top 50 and seven in the top 100, led by the Indian Institute of Technology Delhi (IITD) at 44th place.
- 54 Indian institutes, including the Indian Institute of Science (IISc) Bengaluru and eight IITs got featured among the top 500 universities in the QS World University Rankings CY26.

3. INCREASING INVESTMENTS

- The education market in India is expected to amount to Rs. 26,94,617 crore (US\$ 313 billion) by FY30.
- Cumulative Foreign Direct Investment (FDI) equity inflow in the education sector stood at Rs. 83,605.29 Crore (US\$ 11,290.86 million) between January 2000 to March 2026, accounting for 1.42% of total FDI inflows.
- The edtech space has attracted private equity and venture capital investments of over Rs. 1,23,883 crore (US\$ 14.4 billion) over the last decade from 2015 to 2025.
- The Union Budget 2026–27 allocated Rs. 100 crore (US\$ 11.11 million) for a Centre of Excellence in Artificial Intelligence (AI) for Education, aimed at enhancing skills, personalising learning and strengthening AI integration in education.

4. POLICY SUPPORT

- 100% FDI (automatic route) is allowed in the Indian education sector.
- To liberalise the sector, the Government has taken initiatives such as the National Accreditation Regulatory Authority Bill for Higher Educational, and the Foreign Educational Institutions Bill.
- The government schemes of Revitalising Infrastructure and System in Education (RISE) and Education Quality Upgradation and Inclusion Programme (EQUIP) are helping the government tackle the prominent challenges faced by the education sector.
- A new flagship initiative, Atal Tinkering Labs (ATL), received an allocation of Rs. 3,200 crore (US\$ 0.36 billion) in FY27 to strengthen innovation and STEM education in schools.

School education

Schools In India, 2024-25

Number of Students, 2024-25

- The new education policy emphasis on early childhood care and education. The 10+2 structure of school curricula is to be replaced by a 5+3+3+4 curricular structure corresponding to ages 3-8, 8-11, 11-14, and 14-18 years, respectively.
- In August 2023, Union Minister of Education Mr. Dharmendra Pradhan unveiled the National Curriculum Framework for School Education (NCF), which has been developed based on the National Education Policy (NEP), 2020 vision. As per that, in order to guarantee that students have adequate time and opportunity to perform successfully, board exams will be offered at least twice a year.
- A new National Assessment Centre, PARAKH (Performance Assessment, Review, and Analysis of Knowledge for Holistic Development), was set up as a standard-setting body.
- The Union Cabinet accepted the continuance of the Samagra Shiksha School Education Scheme in 2021 from April 1, 2021-March 31, 2026.
- PM SHRI School, a centrally sponsored scheme, aims to develop over 14,500 schools with safe, inclusive environments, quality infrastructure, and diverse learning experiences, seeks to nurture students as engaged, productive citizens aligned with the vision of the National Education Policy (NEP) 2020.
- India marked 10 years of Skill India with Skilling for AI Readiness (SOAR), an AI skilling programme for classes 6-12 and educators, backed by MoUs with leading institutions to boost future-ready education.

Higher education...(1/4)

Number of Colleges in India

Number of Universities in India

- According to AISHE portal, the number of Higher Education Institutions (HEIs) witnessed a remarkable 13.8% increase, rising from 51,534 in 2014-15 to an impressive 70,018 as of June 2025. This number contains Universities, Colleges, Standalone Universities/Colleges, PM Vidyalaxmi and Research and Development Institutes. According to projections by the IMARC Group, this market is expected to grow to Rs. 11,60,000 crore (US\$ 134.84 billion) by CY33, reflecting a CAGR of 8.10%.
- Number of colleges in India reached 53,461 in FY26 (as of February 2026), up from 42,343 in FY20.
- Number of universities in India reached 1,409 in FY26 (as of February 2026), up from 760 in FY15.
- The University Grants Commission approved the 'Guidelines for Sustainable University-Industry Collaboration in Indian Universities' in June 2023. Higher educational institutions have been asked to take measures to boost R&D by creating R&D clusters at State or regional levels through University-Industry (UI) linkages.

Higher education...(2/4)

Student Enrolment in Higher Education (million)

Expected Growth in Student Enrolment in Higher Education

- India has the world's largest higher education system, and it ranks second in terms of student enrolment.
- Higher education enrolment stood at 4.33 crore (43.30 million) in FY22 and increased to 4.46 crore (44.60 million) in FY23. India had 43.3 million students enrolled in higher education in 2021-22 with 22.6 million male and 20.7 million female students, as against 41.3 million students enrolled in higher education in 2020-21, with 21.2 million male and 20.1 million female students.
- India's online education market is set to hit US\$ 7.57 billion (Rs. 65,458 crore) in 2025, growing at 25.76% CAGR to US\$ 18.94 billion by 2029, with 309.1 million users and 15% penetration.
- NEP 2020 aims to increase the Gross Enrolment Ratio (GER) in higher education, including vocational education, from 26.3% in 2018 to 50% by 2035.
- Marking five years of NEP 2020, the Centre will introduce a binary 'accredited' or 'not accredited' system for higher education, launch a 'Bharatiya Bhasha' translation tool, operationalise an AI Centre of Excellence, and announce new Kendriya and Navodaya Vidyalayas.

Higher education...(3/4)

Percentage of Institutions in Rural Areas (FY25)

University Mix (FY27)*

- There has been a significant increase in the share of state private universities as part of total universities. In FY26 (as of June 2026), 39.21% of universities in the state were state private universities and 34.37% were state public universities.
- In India, 51.8% of universities and 54.3% of colleges are situated in rural areas.
- The university mix is as follows (as of june 2026):
 - State Public Universities: 488
 - Deemed to be Universities: 138 (Private + government)
 - Central Universities: 57
 - Private Universities: 538

*Note: * - Upto June 2026*

Notable trends in the K-12 segment

2. EMERGENCE OF INTERNATIONAL SCHOOL SEGMENT

- With increasing awareness, private Indian players are collaborating with international brands to provide an international standard of education.
- The number of authorised IB World Schools in India has grown 44% in five years, rising from 192 in 2020 to 276 in 2025, offering around 380 programmes and expanding into tier 2 and tier 3 cities. As of May 2026, the International Baccalaureate (IB) offered over 8,900 programmes across more than 6,200 schools in over 160 countries.
- India's K-12 education market is projected to reach Rs. 24,13,080 crore (US\$ 268.12 billion) by 2030, growing at a CAGR of 12.3%.

1. PRIVATE SCHOOLS ADOPTING FRANCHISE MODELS

- Various operating models like a mix of franchise and owned-schools are being used by private players to ensure their economic viability.
- Setting up an all-new education institution is very difficult and expensive. Franchising provides opportunities to start a new business with less capital.

3. INCREASING USE OF TECHNOLOGY

- In March 2026, more than 1.79 lakh ICT laboratories were approved with an investment of Rs. 7,634 crore (US\$ 0.86 billion) to expand digital learning infrastructure across rural, tribal and aspirational districts. The SWAYAM platform offered 110+ free AI courses from IITs and IISc, with over 41.2 lakh student enrolments, strengthening digital and AI-based learning.
- The YUVA AI initiative targeted one crore citizens through a free, self-paced AI learning programme, while the YuvAi Initiative aims to train 100,000 students and developers over three years in open-source AI technologies.
- As part of a comprehensive initiative known as PM eVIDYA, the Department of School Education and the Ministry of Education were recognised by UNESCO for their use of information and communication technology (ICT) during the COVID-19 pandemic.

4. KEY CHALLENGES

- Enrolment rate across the senior classes is quite low, while the girls' dropout rates have generally declined and are now lower than those of boys at primary and secondary levels. Nearly 40% still discontinue schooling after Class 10 due to persistent socio-economic and infrastructural challenges.

Source: Ministry of Education, KPMG, UGC, News articles

Notable trends in the vocational training segment

1. PRIMARY COOPERATIVE INSTITUTIONS TRAINING

- 'Sahakar Pragma' initiative was introduced by the Minister of Agriculture and Farmers' Welfare, Rural Development, Panchayat Raj and Food Processing Industries, Mr. Narendra Singh Tomar.
- The National Cooperative Development Corporation (NCDC) will provide training to primary cooperative societies in rural areas, using 45 new training modules from Sahakar Pragma.

2. ONLINE CHANNEL GAINING MOMENTUM

- In March 2026, the Government continued to strengthen PM eVIDYA, a multi-modal digital education initiative integrating DIKSHA, SWAYAM, SWAYAM Prabha and other online learning platforms to expand access to digital education across the country.

3. GOVERNMENT INITIATIVES

- The National Education Policy (NEP) 2020 aims to provide vocational education to at least 50% of students by 2035, with courses aligned to the National Skills Qualification Framework offered from Grades 9–12. As of December 2025, vocational training is being delivered in 25,000 schools, covering 35 lakh students, with the Economic Survey of India recommending its expansion from Grade 6 onwards.
- In March 2026, the IndiaAI Mission, with a budget of Rs. 10,371.92 crore (US\$ 1.17 billion) over five years, continued to support AI computing infrastructure, datasets and education-focused AI applications across institutions.
- The Union Cabinet approved the continuation and restructuring of the Skill India Programme till FY26 with an outlay of Rs. 8,800 crore (US\$ 1.01 billion) to enhance industry-aligned, tech-driven training nationwide.

4. CORPORATE PARTNERSHIPS

- In February 2026, Indian Institute of Technology Madras established the IIT Madras Global Research Foundation (IITM Global) and strengthened its global corporate partnerships through collaborations with Technische Universität Dresden, Carl Zeiss and Flexora to advance deep-tech research, innovation, commercialisation and flexible electronics.
- In May 2025, the Indian Institute of Foreign Trade (IIFT) opened its first overseas campus in Dubai, advancing India's higher education globalisation under NEP 2020 and serving global learners and the Indian community abroad.
- Imarticus Learning has announced a partnership with PwC Academy in India to provide digital-savvy professionals with expertise in Generative AI (GenAI), as stated in a recent announcement in February 2025.

Source: KPMG, Ministry of Education, News Sources, RedSeer and Omidyar Network India Report

Strategies adopted

PROVIDING ONLINE AND SUPPLEMENTAL SOLUTIONS

- In February 2026, LingoAce launched ACE Academy, expanding its online learning platform to K-12 Mathematics, English Language Arts and Mandarin Chinese through AI-enhanced personalised learning, live online instruction and in-person learning centres.
- Dish TV added 32 educational channels of the Ministry of Education on its platform.
- Plastic Water Labs built a virtual reality platform to help students understand science and mathematics better.
- WhizJuniors launched WhizGoogler for students, which will help them navigate the internet for various technologies.

OFFERING SCHOLARSHIPS

- In August 2025, Going Global Partnerships launched UK-India Industry-Academia TNE Grants 2025-26, offering up to US\$ 23,294 for projects starting September 30, 2025, to foster UK-India education and industry collaboration.
- In February 2022, Australia's Trade Minister Mr. Dan Tehan announced two scholarship and cultural exchange programs for 45 Indian students as part of the Maitri initiative. These scholarships will cover all the educational and living expenses of the students.
- In February 2022, Australian Foreign Minister Ms. Marise Payne announced the 'Maitri Fellowships Program' under which it will provide US\$ 11 million over 4 years to support Indian students in their overseas studies.
- In January 2022, the University of East Anglia (UEA), one of the UK's top 25 universities, announced a fully sponsored annual Sonny Mehta India scholarship worth US\$ 38,852 for promising Indian writers.

JOINT VENTURES

- In 2025, the Adani Foundation partnered with GEMS Education to invest Rs. 2,000 crore (US\$ 2.12 billion) in establishing 20 schools over three years. The partnership combines GEMS' curriculum and teacher training expertise with Adani's operational capabilities, while reserving 30% of seats for underprivileged students.
- Domestic service providers have formed JVs with foreign players. For example, GMR Aviation Academy and UAE-based Emirates Group Security will jointly offer various aviation and security courses in India.
- Indian institutions are open to strategic alliances with Australian institutions as Australia is one of the preferred destinations for Indian students seeking quality education.
- On May 17, 2025, the IIT Bombay announced plans to open its first global campus in Japan in collaboration with Tohoku University, opening new avenues for international research and student exchange.

Growth drivers and opportunities

Opportunities...(1/2)

1

Investment in education

- 100% FDI (automatic route) is allowed in the Indian education sector. Cumulative Foreign Direct Investment (FDI) equity inflow in the education sector stood at Rs. 83,605.29 Crore (US\$ 11,290.86 million) between January 2000 to March 2026, accounting for 1.42% of total FDI inflows.
- In November 2025, PhysicsWallah, an Indian education technology company, saw its Rs. 3,480 crore (US\$ 390 million) initial public offering list at a 33-42% premium to its issue price, marking one of the strongest new-age market debuts of the year.
- The Union Budget 2026–27 allocated Rs. 100 crore (US\$ 11.11 million) for a Centre of Excellence in Artificial Intelligence (AI) for Education, aimed at enhancing skills, personalising learning and strengthening AI integration in education.

2

Policy support

- The government is implementing the PM-SETU scheme with an outlay of Rs. 60,000 crore (US\$ 6.79 billion) to upgrade 1,000 Industrial Training Institutes (ITIs) through a hub-and-spoke model, focusing on modern infrastructure, industry-aligned courses and Centres of Excellence to enhance employability. In February 2022, the Ministry of Education approved the scheme of Rashtriya Uchchatar Shiksha Abhiyan (RUSA) to continue till 2026.
- Union Minister for Education, Mr. Dharmendra Pradhan, announced the establishment of three AI Centres of Excellence (CoE) in New Delhi, focusing on Healthcare, Agriculture, and Sustainable Cities. These CoEs, aimed at realizing the vision of "Viksit Bharat," will be led by leading educational institutions in collaboration with industry partners and startups.

3

Immense growth potential

- India has the world's largest population of people between 5-24 years - 500 million people, and this provides a great growth opportunity for the education sector. Centre and states together spend around 4.1% of GDP on education, lower than the recommended 6%.
- The India higher education market, valued at Rs. 5,75,000 crore (US\$ 68.06 billion) in 2024, is projected to reach Rs. 11,60,000 crore (US\$ 134.84 billion) by 2033, growing at a CAGR of 8.10% during 2025-2033. India's edtech market was valued at Rs. 3,35,470 crore (US\$ 3.63 billion) in 2025 and is projected to reach Rs. 29,97,900 crore (US\$ 33.31 billion) by 2034, growing at a CAGR of 28%.
- India K-12 segment growth was valued at US\$ 48.9 billion in 2023, and it is projected to reach US\$ 125.8 billion by 2032.

Source: PTI, Government of India, News Articles, Union Budget 2025-26, DPIIT, imarc group

Opportunities...(2/2)

4

Public Private Partnership (PPP)

- Setting up formal educational institutes under PPP and enlarging the existing ones.
- In the case of PPP, the government is considering various models like basic infrastructure model, outsourcing model, equity/hybrid model and reverse outsourcing model.
- Institutions of national importance like NIDs will be able to establish PPP and collaborate with research labs across the country.

5

Opportunities for foreign investors

- India has one of the world's largest higher education systems, with over 62,000 institutions serving 42.5 million students, providing significant opportunities for investment and expansion.
- There are now more opportunities for private and foreign companies that are involved in academics through financial partnerships with Indian institutions.
- In October 2024, edtech firm Eruditus raised Rs. 1,267 crore (US\$ 150 million), in a funding round led by US-based TPG Rise, with participation from global investors including SoftBank Vision Fund 2, Accel, and CPP Investments.

6

Opportunities for innovative services

- The market revenue of the coaching industry in India stood at Rs. 58,088 crore (US\$ 7 billion) (as of December 2022) and the industry's growth is projected to reach Rs. 1,33,995 crore (US\$ 16.16 billion) by 2028.
- STEM-based edtech companies are partnering with NITI Aayog and the government to build a STEM ecosystem by establishing Atal Tinkering Labs (ATL) to spread knowledge about STEM, STEAM, AI, ML, and robotics for K-12 students.

Key policies and initiatives...(1/4)

1

Union Budget FY27

- The government allocated Rs. 83,562.26 crore (US\$ 9.45 billion) to the Department of School Education and Literacy in FY27, marking an increase of 6.35% over FY26.
- The allocation for the Department of Higher Education stood at Rs. 55,727.22 crore (US\$ 6.30 billion) in FY27, reflecting an increase of 11.28% compared to FY26.
- Key school education schemes, including Samagra Shiksha, received Rs. 42,100 crore (US\$ 4.68 billion), marking an increase of 11% over FY26 (RE).

2

National Education Policy (NEP), 2020

- The Union Cabinet, led by Prime Minister Mr. Narendra Modi, has approved the PM Vidyalaxmi scheme, aimed at providing financial support to meritorious students to ensure that financial constraints do not hinder their pursuit of higher education. This initiative aligns with the recommendations of the National Education Policy.
- NEP aims to attain 100% gross enrolment ratio (GER) at all levels of school education. In 2024-25, GER at secondary and higher secondary level was 79% and 58%, respectively.

3

NEP 2020 Implementation

- In July 2025, the Vice Chancellors' Conference stressed implementing the NEP 2020 through multidisciplinary education, digital platforms like Study Webs of Active Learning for Young Aspiring Minds (SWAYAM), and integration of Indian Knowledge Systems (IKS).
- The Department of School Education and Literacy (DoSE&L) also launched the NIPUN Bharat initiative to ensure foundational literacy and numeracy for all children by the year 2026-27.
- In July 2025, the DoSE&L convened a national conference to advance NEP 2020 implementation, focusing on board equivalence, competency-based learning, Holistic Progress Cards, and data-driven strategies to improve learning outcomes across States/UTs
- In February 2024, the Automated Permanent Academic Account Registry (APAAR), launched via Common Service Centres (CSCs) under NEP 2020, provides students a lifelong Academic Bank of Credits (ABC) ID for seamless credit transfers, admissions, and digital access to academic records.

Notes: NEP - National Education Policy, Government of India, News Sources

Key policies and initiatives...(2/4)

4

Partnerships with National & International Agencies

- The Indian Institute of Science Bangalore signed an MoU with Ethiopia's Ministry of Education to launch joint PhD programmes and research collaboration in science and engineering, strengthening India's global academic outreach.
- The Ministry of Education is implementing the 'Scheme of Vocationalisation of School Education' under the umbrella of 'SamagraShiksha - an integrated scheme for school education'.
- Going Global Partnerships launched UK-India Industry-Academia TNE Grants 2025-26, offering up to US\$ 23,294 for projects starting September 30, 2025, to foster UK-India education and industry collaboration.
- Universities are increasingly participating in multi-country collaborations and Centres of Excellence, such as India–New Zealand academic partnerships focused on joint research, faculty exchange and infrastructure sharing.

5

Pradhan Mantri Kaushal Vikas Yojana

- PMKVY 4.0 has shifted to a demand-driven, outcome-focused skilling model; by 7 December 2025, it had trained 27.08 lakh candidates across 38 sectors and 732 districts, with 77 customised courses and 102 future-skill job roles introduced under a whole-of-government skilling approach.

Notes: NEP - National Education Policy, Government of India, News Sources

Key policies and initiatives...(3/4)

6

Integrated Teacher Training Programme NISHTHA

- In September 2021, NISHTHA 3.0 Foundational Literacy and Numeracy (FtN) was released for teachers and school administrators of pre-primary to class V in an online fashion on the DIKSHA platform.

7

Alternative Academic Calendar (AAC)

- To engage students at home amid the coronavirus pandemic through educational activities, an alternative academic calendar for students, parents and teachers for Classes 1-12 was developed by the NCERT under the guidance of the Ministry of Education.
- Alternative Academic Calendar (AAC) for four weeks and the next eight weeks for primary and upper primary stages were released.
- The AAC Calendar provides guidelines to teachers on the use of various technological tools and social media tools available for imparting education in fun-filled and interesting ways. However, it has taken into account the varying levels of access to such tools — mobiles, radio, television, and various other social media platforms.

8

Rail Kaushal Vikas Yojana

- On September 17, 2021, Mr. Ashwini Vaishnaw, the Minister of Railways, Communications, Electronics and Information Technology, launched Rail Kaushal Vikas Yojana, a programme under the Pradhan Mantri Kaushal Vikas Yojana (PMKVY). Its main purpose was to empower today's youth by providing entry-level training in industry relevant skills through railway training institutes as part of 75 years of Azadi ka Amrit Mahotsav.

9

STARS

- STARS project would be implemented as a new Centrally Sponsored Scheme under the Department of School Education and Literacy, Ministry of Education.
- The project covers six states-Himachal Pradesh, Rajasthan, Maharashtra, Madhya Pradesh, Kerala and Odisha.

Source: Government of India, News Sources

Key policies and initiatives...(4/4)

10

DIET of Excellence

- In March 2024, Union Minister of Education and Skill Development & Entrepreneurship launched various initiatives namely, District Institutes of Education and Training (DIETs) of Excellence and National Mission for Mentoring. This program is to strengthen teacher training.
- Financial assistance, totalling to US\$ 1.08 billion will be delivered to States/UTs for upgradation of all DIETs to develop them as DIET of Excellence in the country in a phased manner in the next five years.

11

DIKSHA

- DIKSHA, or "One Nation, One Digital Platform," is an initiative providing quality e-content for school education across States and UTs in India, fully funded by the National Component of the Samagra Siksha scheme and managed by NCERT. The platform features a federated architecture, allowing 35 States/UTs to create their own tenants and tailor programs for teachers, learners, and administrators according to their curricular needs. Many States/UTs have digitized textbooks linked to additional resources like videos, audios, and interactive assessments, termed Energized Digital Textbooks.
- DIKSHA has a dedicated focus on Foundation Literacy and Numeracy (FLN), offering over 2,700 e-contents across various formats such as assessment sheets, gamified content, infographics, and worksheets. These resources have been accessed more than 500,000 times nationwide, with NCERT continually collaborating with States/UTs to update content aligned with their curricula.

12

Pradhan Mantri Virasat Ka Samvardhan

- In July 2025, the Ministry of Minority Affairs launched the Pradhan Mantri Virasat Ka Samvardhan (PM VIKAS) scheme to empower minority communities through skill development, entrepreneurship, women's leadership training, education, and cultural heritage promotion.

Rising investments

- In March 2026, upGrad signed a term sheet to acquire Unacademy through an all-stock transaction, marking one of the largest consolidation moves in India's EdTech sector as companies shifted towards sustainable growth and operational efficiency.
- Private investments in the Indian education sector have increased substantially over the past two decades.
- LoEstro Advisors has been actively advising on mergers & acquisitions and capital raises across education and other sectors, with over Rs. 13,500 crore (US\$ 1.5 billion) worth of deals closed.
- India's education sector witnessed a decline in M&A and investment activity during CY2023, followed by gradual stabilisation in CY2024, before recovering to ~85 transactions with deal value of Rs. 5,220 crore (US\$ 580 million) in CY2025, reflecting improving investor confidence and a shift towards strategic consolidation.
- In H1 2025, India's edtech funding rebounded with a fivefold surge to approximately Rs. 1,071 crore (US\$ 120 million) across 11 deals, driven by AI-led startups and renewed investor confidence.
- In November 2025, PhysicsWallah, an Indian education technology company, saw its Rs. 3,480 crore (US\$ 390 million) initial public offering list at a 33-42% premium to its issue price, marking one of the strongest new-age market debuts of the year.
- The edtech space has attracted private equity and venture capital investments of over Rs. 1,23,883 crore (US\$ 14.4 billion) over the last decade from 2015 to 2025.
- In February 2025, UpGrad secured an additional Rs. 521.10 crore (US\$ 60 million) from Temasek, maintaining its valuation at Rs. 19,541 crore (US\$ 2.25 billion). This funding round also included a secondary transaction where Mr. Ronnie Screwvala, UpGrad's founder and chairman, bought out Bharti Enterprises' stake for Rs. 173.70 crore (US\$ 20 million).
- In January 2025, CL Educate Limited acquired the Digital Exam Assessment (DEX) business of NSEIT Limited for Rs. 230 crore (US\$ 26.6 million) upfront with an additional Rs. 75 crore (US\$ 8.7 million) earn-out, entering India's Rs. 7,000 crore (US\$ 809.5 million) assessments market.

Merger & Acquisition (M&A) in Indian Education Sector

New developments

New developments in the education and training industry (1/2)

1

NEW OFFERINGS FROM AMAZON

- In 2026, Amazon Web Services (AWS) strengthened its education portfolio by expanding AI-powered cloud solutions for over 17,000 education customers, supporting personalised learning, research and digital transformation across educational institutions.
- In August 2023, Amazon India launched the third edition of Machine Learning (ML) Summer School. This program aims to provide students with the opportunity to learn key ML technologies from Scientists at Amazon.
- As informed in August 2023, the Directorate General of Training (DGT) will collaborate with Amazon Web Services (AWS) India to upskill students in cloud computing, data annotation, artificial intelligence (AI), and machine learning.

2

ATAL TINKERING LABS (ATL)

- As announced in December 2025, the Government of India plans to establish 50,000 additional Atal Tinkering Labs (ATLs) in schools across the country over the next five years (2025–2030), under the Atal Innovation Mission to strengthen innovation and STEM education. As of October 2025, over 10,000 ATLs were already operational, engaging more than 1.1 crore students, highlighting the rapid expansion of India's school-level innovation ecosystem.

3

STRATEGIC PARTNERSHIP

- Coursera is boosting GenAI skills in India through 18 top universities, including IITs, IIMs, and BITS Pilani, with Fractal Analytics for industry courses, while its AI tool Coach improves completion, especially for women and academically weaker learners.
- IIT Kanpur's Foundation for Innovation & Research in Science & Technology and Toronto Business Development Centre, Canada, have signed a memorandum of understanding to provide business advisory, investor and industry connections to start-ups, such as startup visa and soft-landing programmes, qualifying under the Toronto Business Development Centre's programmes.

New developments in the education and training industry (2/2)

4

NEW CAMPUS & BUILDINGS

- In February 2026, the Government of Delhi inaugurated new academic blocks at the District Institute of Education and Training (DIET), Dilshad Garden and Sarvodaya Vidyalaya, Mansarovar Garden, along with 101 ICT laboratories across government schools to strengthen digital learning and modern education infrastructure.
- The Union Cabinet approved a Rs. 11,829 crore (US\$ 1.38 billion) expansion for five IITs, adding 6,576 seats, 130 faculty posts, and new research parks by FY29 to boost infrastructure, academics, and industry collaboration.

5

SKILL DEVELOPMENT INITIATIVE

- The Government of India is upgrading 1,000 Industrial Training Institutes (ITIs) under a Rs. 60,000 crore (US\$ 6.94 billion) scheme, with hubs, Centres of Excellence, and industry partnerships to train two million youth and boost employability.
- As announced by Prime Minister Mr. Narendra Modi in November 2025, deposits under the Sukanya Samridhi Yojana crossed Rs. 3,25,000 crore (US\$ 36.72 billion), with over four crore accounts opened, reflecting strong participation in savings schemes aimed at the education and welfare of the girl child.

6

IT-BASED TRAINING

- In May 2025, Oracle, in collaboration with Andhra Pradesh State Skill Development Corporation, began digitally training 400,000 students in emerging technologies including Oracle Cloud, AI, Data Science, DevOps, and Security through over 300 hours of structured learning on Oracle MyLearn. The programme provides certifications and skill badges to enhance employability and prepare youth for future technology roles.

7

RISE IN EDTECH ENROLMENT

- India has emerged as the fastest-growing market for Coursera, recorded 5.4 million enrolments in generative AI courses globally in 2025, nearly doubling year-on-year, reflecting the rapid adoption of AI-related skills.
